Dear Membrane Professional,

The Southwest Membrane Operator Association (SWMOA) is in the process of developing the agenda for the Annual Symposium in Las Vegas, NV on February 7-9, 2011 at the Flamingo Hotel. The theme of the 2011 Annual Symposium is: **"With Membranes - We are All In!"** In an effort to better serve our members, this year we would like to send out a general call for presenters/papers. The conference committee has determined that the following topics will be presented next February.

Topics for Presentations: Lessons learned during

1. Setting up and implementing pilot plant operations
2. Wastewater membrane operations and maintenance
3. Desalination and Industrial RO operations
4. Drinking water membrane operations

These topics will be applicable for all membrane types and services (i.e. RO/NF/UF/MF, Drinking Water, Reuse, MBR, and Industrial). If you are interested in presenting please fill out the attached speaker bio form and email it back to admin@swmoa.org.

The deadline for submission of speaker bio and abstract form is July 30, 2010.

If your topic is selected, you will be notified via email by September 30, 2010 and a PowerPoint presentation needs to be submitted by January 1, 2011, no paper is required. Should you have any questions, please reply to this email or call 888-463-0830.

Thank you for your interest in this event and we look forward to receiving your speaker topic information.

John Deogracias
SWMOA Program Chair
